

Empower Your Practice Workshop

Dear Patient,

Thank you for volunteering to be a participant in our scleral contact lens workshop. This workshop is an introduction for Eye Care Professionals to scleral lenses, their indications, benefits and simplified fitting techniques proven to optimize success to you, the patient.

Your participation in the hands-on portion will greatly benefit our attendees by providing them the opportunity to fit and evaluate a scleral lens on eye.

For your participation in this workshop, your Atlantis Scleral contact lenses will be **free of charge**.

Here are some things to know:

- Please arrive to the workshop location by 8:00 pm
- Dinner will be served and you are welcome to join us once you arrive
- You will be fit from a diagnostic set, which means your lenses will be dispensed by your Eye Care Doctor at a later date (they will have to be ordered)
- Wear dark clothes if possible (due to fluorescein dye that is used to observe the lens fit)
- Females may want to go light on make-up
- Multiple optometrists and contact lens fitters will be on-site to observe your fitting
- Expect to be at the workshop for approximately one (1) hour

For information on scleral contact lenses, please visit www.contactlenses.org.

We thank you again for your participation. If you have any questions regarding the workshop or obtaining your final set of lenses, please contact your doctor directly.

Thank you,

X-Cel Specialty Contacts
